

Research Study Opportunity

Parents & Caregivers of Children with DIPG

Researchers at Ohio University are conducting a research study to better understand the experiences of parents and primary caregivers of children diagnosed with Diffuse Intrinsic Pontine Glioma (DIPG).

We are interested in learning about experiences related to:

- ♦ caregiving
- ♦ healthcare decision-making
- ♦ resilience and coping
- ♦ family support needs
- ♦ grief and bereavement experiences

Who Can Participate?

You may be eligible if you:

- ♦ are 18 years of age or older
- ♦ are a parent or primary caregiver of a child diagnosed with DIPG
- ♦ are currently caring for a child with DIPG or experienced the loss of a child to DIPG within the past 5 years
- ♦ are physically located within the United States during participation

What Will Participation Involve?

- ♦ One interview lasting approximately 60–90 minutes
- ♦ Conducted remotely through Microsoft Teams
- ♦ Interview will be recorded and transcribed

Compensation

Participants will receive a \$150 e-gift card for participation.

Voluntary Participation

Participation is voluntary. You may decline to answer any question or stop participation at any time.
